Media Release

Maxcraft Avionics receives STC for installation of GWX70 Weather Radar, GTS 850 TCAS I, and GTX330 Mode S Transponders in Hawker Beechcraft 200 and B200 Aircraft

Vancouver, BC, July 31 2013, Maxcraft Avionics, an established Avionics company located on Pitt Meadows Airport near Vancouver, B.C., has received Transport Canada Supplemental Type Certificate (STC) SA13-32 for installation of GWX70 Weather Radar, GTS 850 TCAS I, and GTX330 Mode S Transponders in Hawker Beechcraft 200 and B200 Aircraft.

This newly approved package coupled with Garmin Primary Flight and Multifunction Display Systems offers a complete and modern avionics solution for your Hawker Beechcraft 200 or B200 aircraft.

About Maxcraft Avionics Ltd.

Maxcraft is Canadian owned and operates worldwide. It was founded in 1989, initially to address a need for competent avionics support services in the helicopter logging industry. Maxcraft's customer base has grown over the years to include operators and aircraft of all types -- both private and commercial: from business, charter, corporate, and airline operations; to police, military, and air ambulance fleets.. With state-of-the-art facilities and highly trained personnel, it provides full-service support to the private and commercial fixed wing market as well as the helicopter sector. Maxcraft Avionics can be found on the web at www.maxcraft.ca or may be reached at 604-465-3080.
